

The Principal

Sub. : Invitation to participate in 'Geek<a/>Hertz' an Annual Inter School Tech-Fest 2018.

Dear Sir / Madam

"Technology is not an event, it's a part of everyday learning".

After the success of **Geek<a/>Hertz**, our Annual Inter School Computer Tech Fest both in the **National** as well as **International level** for the past two years, we are proud to announce its **third edition**. We would like to extend an invite to the students of your school to participate in this grand event, to be held on **30.11.2018**.

Just as learning different languages opens up the ability to communicate , learning computer skills enable the students to create technologies which will impact the world in the years to come. Through Geek-a Hertz, we aim to provide a platform for students of classes VII to XII (age 12- 18) to display their computer and logical skills. It will also open up windows of opportunities for students in our country as well as overseas to showcase their talent through virtual competitions.

The details of the various competitions are available as a separate document along with this mail as well as on www.saintmarksschool.com or www.geekahertz.in .Kindly register on www.geekahertz.in latest by Thursday 01.11.2018. You are requested to confirm your participation at the earliest.

Thanking you

Yours sincerely

PRINCIPAL
